SUMMARY	SneakerHub is an e-commerce platform designed to cater to sneaker enthusiasts by offering a wide selection of the latest and most sought-after sneakers
DESIRED OUTCOME	To create a seamless shopping experience for sneaker enthusiasts, enabling them to discover and purchase exclusive sneakers effortlessly.
ACTION TO COMPLETION	Complete the sneaker website project by designing the front end with React.js, developing the back end with Node.js and MongoDB, and integrating secure payments via Stripe. The final steps include testing, deployment, and post-launch monitoring to ensure smooth functionality and user experience.
BENEFITS OF PROJECT	This project provides an easy-to-use platform for sneaker enthusiasts to shop for exclusive footwear, driving sales and brand visibility. It also offers a scalable, secure e-commerce solution with seamless payment integration for business growth.
PROJECTED SCHEDULE	Complete the project over 8 weeks, with 4 weeks for design and development (frontend, backend, payment integration), followed by 2 weeks of testing and 2 weeks for deployment and post-launch adjustments. Regular progress reviews will ensure timely delivery.
PROJECTED BUDGET	Rs. 6000
PROJECTED TEAM AND RESOURCE REQUIREMENTS	Technical Resources: React.js, Node.js, Express.js, MongoDB, Stripe API, AWS. Development Tools: VS Code, Git/GitHub, Postman. Financial Resources: Hosting, domain, payment gateway fees.
